

The Secret History of the Mongols

The Origin of Chingis Khan

Adapted by Paul Kahn

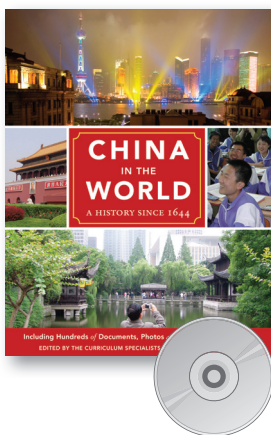

The oldest surviving Mongolian text, written two decades after the death of Chingis (Genghis) Khan, *The Secret History of the Mongols* tells the Mongols' own version of the origin of their nation, the life of Chingis Khan, and the creation of an empire that stretched across Eurasia in the thirteenth century. Adapted from a translation by Francis Woodman Cleaves, it is presented here as a narrative poem in colloquial English. An overview of medieval Asia, maps, lineage charts, a glossary of proper names, and a bibliography are included. This expanded edition includes a seventeenth-century account of Chingis Khan's death and a recent essay by the editor.
