

Dear Family Member,

In Japanese class we are working on Lesson 3 of *Adventures in Japanese Volume 1*. In this lesson, your child will learn to talk about family. By the end of the lesson, your child will be able to use Japanese to:

- say his or her age, name of school, and grade
- introduce family members (number of people, age, grade, job, nationality)
- ask about someone else's family (name, age, job)
- introduce a friend (name, age, grade, school)

Share with your child

- Ask your child how to say the terms for different family members in Japanese.
- Ask your child to tell you how should refer to other's people family differently than your own in Japanese.
- Ask your child what they would call you in Japanese (mother, father, grandmother, grandfather, etc.).
- Ask your child how the Japanese school system is structured by grades.
- Ask your child how to say Japan and your own country in Japanese.
- Ask your child to show how to write the numbers 1-5 in *kanji*.
