In recent years, China has grown to be an economic and military global superpower. As China's international status grows, the rest of the world grows more interest in the civilizations deep, rich history and culture. This book is comprised of beautifully-written essays on Chinese philosophy and religious thought, literature, and art written by eminent scholars in their respective fields. What these contributing scholars accomplish through their collective works is convey to readers what the world owes to China in the major realms of the spirit and intellect.

"On perusing this book, a reviewer is almost forced to the cliché that it should be required reading..." *Virginia Quarterly Review*
